

Your 2022 income-based rate certificate for (CHILD) with child code (CODE) will be available in December

Dear parent,

Your income-based rate for childcare will be automatically indexed on January 1st, 2022. The indexation for 2022 amounts to 1.89%.

#### How does it work?

1. You will receive an email in December containing the message that your new income-based rate certificate is available.
2. Upon receipt of this email, sign in to [my.kindengezin.be](https://my.kindengezin.be) with your eID or your federal token. You will find your new certificate there.
3. Please provide your nursery with this certificate as soon as possible and by 15th January 2022 at the latest. This will allow your nursery to invoice correctly.

**Important! Only request a new certificate yourself if:**

- your family composition has changed;
- you have an additional dependent child since your last certificate

#### Questions?

- Contact your nursery

Yours sincerely,

Child and Family Agency
